

#GIVINGTUESDAY™

December 3, 2019

SUPPORT OUR STEAM LAB !!

We have been supporting Giving Tuesday for the past three years, an International movement to promote giving and philanthropy as a way to instill the idea of giving in our students.

In doing this, we have asked the students to contribute to our school, their own community in some way.

In past campaigns, the students have raised money for the gaga pit, preschool playground equipment and the art room.

This year our targeted goal is to raise funds toward a **Google Virtual Reality kit for our STEAM Lab.**

As always, *participation is completely optional* and we are aware of the many efforts around the holidays for donations to various funds and outlets.

Students who contribute a \$5.00 minimum will receive a pair of Nativity sunglasses as a token of appreciation.

Other contributions can be accepted as well as online giving options available through the school website and Parish Giving platform.

GIVINGTUESDAY
