

# 2nd Grade Summer Reading

Dear Parents,

As the school year ends, and the children look back on all they have achieved this year as first graders, we look ahead to the exciting new challenges in which your child will meet as second graders.

In order for us to jump right into second grade in September, it is important for your child to maintain his/her skills over the summer. Beginning second graders should have mastered basic addition and subtraction facts up to 12. They should be able to compute most of the facts mentally. Flash cards are a great way to practice these facts. Other important skills that they should have mastered are:

- Mental Math
- Place Value
- Skip counting by 2, 5, 10
- Identify patterns in addition and subtraction

Reading is also an important part of a child's life, especially during the elementary years. Upon entering second grade, your child should have a solid foundation in the following areas:

- Basic sight words
- Fluency
- Decoding skills

We are providing you with a summer Math and Reading packet to be completed over the summer. The completed packet will be collected at the end of the first week of school. The book we have chosen for you is **"The Spoon"** by Amy Krouse Rosenthal.

Please complete the attached book report for the story and decorate the picture of the spoon. We have also included a list of Level 1 and 2 Trick words to practice over the summer.

We hope you have a wonderful summer and we look forward to seeing you in September!

Sincerely,

The Second Grade Team
