Advice for Fifth Grade

Dear pre Fifth Grader,

I am glad you are coming to Fifth grade! Although, it can be a bit tough. So, hopefully, this can be some useful advice. You always want to be nice to everybody.

If you do, everybody will be nice to you, too. Always try hard and never give up on projects. They could be hard, but always try. Be prepared to have... fun!

Fifth grade can be hard, but it is fun too. I hope that you'll have a blast in Fifth grade!!

Yours truly

Connor Meehan
